# Viplak Duo Blue and Pink

## Plaque Disclosing

VIPLAK DUO Blue and Pink AF do BRASIL is used to evidence the presence of bacterial plaques, with the aid of two pigmentations to indicate old plaque and new plaque.

The product has a greater power to stain plaque on apparently clean teeth, having two colors that contrast with the teeth and make it possible to check old and new plaques. This device not only facilitates the location of plaque, but also the instruction of oral hygiene.

### INDICATION

Indicated to show bacterial plaque with two chromatic indicators to color old plaque (blue) and new plaque (pink).

### PRESENTATION
