PRO Tooth Whitener

35% Hydrogen Peroxide

35% PRO Tooth Whitener AF do BRASIL is a professional dental whitening system based on 35% Hydrogen Peroxide for exclusive use in dental offices. A product that has its shortest treatment time because it is a single application. After a homogeneous mixture of the two phases, a gel based on 35% hydrogen peroxide is being formed, with a pH in the range of 6.0 to 7.0.

INDICATION

The PRO Tooth Whitening AF do BRASIL should be used in the office and is indicated for vital and non-vital teeth with extrinsic color changes of a chronic nature, discolored, which cannot be removed by conventional procedures. It can be used with blue light energy sources to help accelerate the reaction of the tooth whitening process.

PRESENTATION

Box with 1 syringe of hydrogen peroxide with 1.2 g, 1 syringe of 0.4 g thickener, 1 syringe of light-curing gingival barrier 2.0 g, 1 black applicator tip, 1 transparent applicator tip and 1 intermediate connector.
