# Wooden Dental Wedges

The Dental Wedges AF do BRASIL are produced in wood and stained with non-toxic pigments. They guarantee a perfect fixation of the matrices and do not require cuts or adjustments, resulting in restorations free of subgingival excess and with perfect contour. Symmetrical and anatomical geometry. Easy handling with tweezers and does not stain the restoration.

## INDICATION

Indicated for general use, in restorative procedures with mechanical function and adapting the matrix and/or moving adjacent teeth apart.
