Eugenol

Provisional Restorative Material

Eugenol AF do BRASIL is a phenolic derivative known as clove oil. It has great use in dentistry due to its analgesic, antiseptic and balsamic, anti-inflammatory and healing qualities. It is also effective in eliminating bacteria present in the mouth. Its effects are complete and depend on the concentration of free Eugenol in the place where it is exposed.

INDICATION

Used together with zinc oxide, it is indicated as a temporary filling agent, cavity lining in deep cavities, agent for temporary or permanent cementation, agent for filling root canals and as a surgical cement.

PRESENTATION

Box with 1 (one) bottle containing 20ml of Eugenol AF do BRASIL.

n° 80432410034
