Inter-A Kit

Intermediate Restorative Material

Inter-A AF do BRASIL is a formulation based on Zinc Oxide and Eugenol modified and reinforced by polymers, offering the product characteristics of easy handling, with faster hardening, high marginal sealing, compatible color, good compressive strength, sedative properties and biocompatibility (free from soluble arsenic). With these characteristics, in addition to bringing agility and a lower postoperative pain index, it allows a temporary restoration with greater durability.

INDICATION

Indicated for cavity lining, provisional sedative filling, provisional cementation of prosthetic parts, root canal fillings, surgical cementation and for long-term temporary restorations.

PRESENTATION

Box containing 1 (one) bottle with 38g of Powder Inter-A AF do BRASIL and 1 (one) bottle with 15ml of Liquid Inter-A AF do BRASIL.
