

AF do **BRASIL**
Produtos Odontológicos

Efficiency, Quality and Fair Value.

Temporary Shutter

The AF do BRASIL Temporary Obturator has great adhesion, ensuring good marginal isolation and rapid chemical hardening in the mouth on contact with saliva and oral temperature.

Malleable, eugenol-free and ready-to-use product.

INDICATION

Indicated for temporary closure/filling of cavities in unfinished or emergency procedures in endodontics, dentistry and prosthesis, preventing contamination.

PRESENTATION

Pot containing 25g of Temporary Shutter AF from BRAZIL.

n° 80432419008
