Retraf

Hilo de Retracción Gingival

Retraf AF do BRASIL is a gingival retractor thread made of 100% braided cotton thread. Due to their composition, they have good absorption, they also have an excellent elastic pressure on the gingival margin, properly removing the tissue in the sulcus and helping the professional in his procedures.

INDICATION

Indicated to retract the gingiva in various dental procedures, facilitating the manipulation of dental infusions, access and visibility of the entire gingival tissue, as well as helping to prevent damage to the gingival tissue during the preparation of cavity preparations.

PRESENTATION

Bottle containing 250 cm of Retraf. Available in 5 thicknesses: 000-Black, 00-Yellow, 0-Lilac, 1-Blue, 2-Green or 3-Red.
