Efficiency, Quality and Fair Value.

Abrasive Polyester Strips

The Abrasive Polyester Strips AF do BRASIL are produced in 100% polyester and aluminum oxide abrasives, developed and intended for professional dental use, have 2 (two) granulations, medium (white) and coarse (grey).

The strips have a neutral, non-abrasive center, making it easier to introduce them to the interproximal surfaces of the teeth.

INDICATION

Indicated for finishing and polishing the faces/proximal surfaces of composite resin and glass ionomer restorations.

PRESENTATION

Box containing 150 units of 4mm wide and 170mm long of Abrasive Polyester Strips AF do BRASIL.
